

5 NATURE ACTIVITIES FOR OUTDOOR LEARNING

green•time: *Allows children to explore natural settings and grow as a whole person by being creative, having fun, understanding how they interact with the world, and building a sense of place.*

- 1** Give children unstructured time to play in the creek.
- 2** Plant native plants around your property to show kids how they can impact the natural world.
- 3** Take a walk and work together to identify various species of birds.
- 4** Find a meadow and look for multiple types of wildflowers.
- 5** Collect leaves and help kids complete tree identification activities.
