

A Community Message from President Peter Gurt '85:

As we deal with historic rainfall and floods in the Hershey area, it gives me great pride to see our MHS community come together in these challenging times.

Our Campus Safety and Security team has provided around-the-clock monitoring and support to ensure our students and staff are safe. Facilities and Program Support Services teams have been working tirelessly to provide resources, supplies, and necessities for students and staff on campus. The Student Programming team proactively created plans to keep our students busy and schedules as normal as possible. These examples do not even begin to cover all of the work being done, and I appreciate the dedication of all who have stepped in to support our School during the latest challenge we face on campus as a result of flooding throughout the area. I am deeply humbled by the commitment you all have to our School and Home.

I am always impressed by the strength the Milton Hershey School team exhibits during challenging times. I am confident that it also gives great reassurance to our parents and sponsors who have trusted us with the care and safety of their children. The professionalism and teamwork on display are the greatest lesson we can model for our students, as they watch our community come together and confront challenges using foresight, positivity, and determination.

As we continue to monitor the rainfall and flooding affecting the Hershey area, we will continue to take proactive measures to ensure safety. Thank you to all who have stepped up over the last few days and continue to do so as we wait for the storm to pass.

Every day, but especially today, I am proud to be a Spartan.

Peter G. Gurt '85  
President
