The most rewarding experience with having a child enroll at Milton Hershey School is having that child take advantage of what we have to offer and see that young person grow into a strong, confident, and mature young adult.

Throughout the Commonwealth, there are teachers, counselors, and other professionals who are working hard to provide hope and offer opportunities to children and families in need. I am thankful that I can be a resource to these unsung heroes, and together we can truly make a difference in a child's life.

It is most rewarding to see great potential in a child and know their experience at Milton Hershey School will open so many doors in life for them. I love the process of introducing a family to the opportunities, hearing about their hopes and dreams, and celebrating with them on Enrollment Day!

The most rewarding experience I have during a student's enrollment process is seeing students who enter MHS with a lack of self-esteem become self-assured young men and women. Being able to watch these kids grow, embrace challenges, and excel in ways they did not even realize would be possible... [that's] what it's all about.

The most rewarding experience with helping to enroll a child at Milton Hershey School is connecting with the families through the process and supporting and advocating for them. It is rewarding to watch them flourish while they are at MHS and take advantage of all we have to offer. The joy of a child and their family on graduation day is an emotionally uplifting experience for every admissions counselor.
